

# THROUGH EVERY DAY A PART OF GOD'S CREATION

There are many exciting things to discover and learn about in God's creation. I love to explore nature and understand how insects and animals live and grow, and how so much of nature—the plants, the trees, and environments—are important to the animals and insects that live there.

Psalms 24:1 says, "The earth and everything in it belong to the Lord. The world and all its people belong to him."<sup>1</sup> God takes care of His creation. He created the perfect cycles of life and care for each part of His creation.

I, too, can be a part of taking care of our beautiful world by respecting the habitats of insects and animals. I can make sure I do not litter or harm the places I visit. This is how I can be a part of keeping our world beautiful and safe for all of God's creatures.
