

Sunshine All Around

I can make a brother happy
When he's had a rainy day;
A little cheery sentence
Can chase his clouds away.
A little bit of kindness,
A compliment that's true
Can cheer a saddened sister
And leave her smiling too!

A cheery little "I like you"
Can help them when they're down.
I love to sprinkle little drops
Of sunshine all around!
Oh, just a little happy word,
I didn't have to say,
But someone was discouraged,
So I said it anyway.

Have you been so sad and hurt
You felt like you could cry,
Then someone said a kindly word
As they were walking by?
It melted all your frosty gloom
That had you feeling sad.
A little cheery, sunshine word
Can make you feel so glad!

So please do to others
As they've done to you.
If you've been cheered by others,
Try cheering someone too.
Give some loving compliments,
Say something true and kind,
Try cheering up unhappy friends
With helpful words you find.

Think of something kind to say;
It's not so hard to do.
At times a friend might only need
A loving word or two.
Let love be in your heart and mind
And find sweet words to say,
And sprinkle drops of sunshine
On others, every day.
