# La primera marioneta navideña cuentacuentos

## MATERIALES:

- Cartulina
- Tijeras
- Cinta adhesiva o pegamento
- 20 a 25 varillas de madera de 15 cm
- Lápices de colores, rotuladores o crayones
- Papel de color verde y azul para fondos

## INSTRUCCIONES:

Imprime las páginas 3-17 en cartulina si utilizas la versión coloreada. Si quieres colorear las piezas tú mismo, imprime las páginas 18-32. Recorta todas las piezas. Pega con pegamento o cinta adhesiva varillas de 15 a 20 cm en la parte posterior de cada figura. Las piezas del escenario (como las casas o el árbol) pueden servir de telón de fondo en un trozo de papel más grande. Utiliza estos títeres de papel para volver a contar la historia de la primera Navidad como está relatada en Lucas 2:1-20. (Opcional: Para mayor durabilidad, cubre la parte delantera con papel adhesivo transparente antes de cortar las piezas individuales).

También puedes utilizar estas figuras para otras actividades, como un mural de Navidad, páginas para colorear o piezas de franelógrafo para contar historias, tarjetas de Navidad, adornos para el árbol, etc.
